

Tenant Types Module

Super Admin manages firm categorization types — SOLO, LAW_FIRM, etc.

Base path: `/api/v1/admin/tenant-types`

Endpoints

Method	Path	Description
GET	/api/v1/admin/tenant-types	List all tenant types
GET	/api/v1/admin/tenant-types/active	List active tenant types
GET	/api/v1/admin/tenant-types/{id}	Get tenant type by ID
POST	/api/v1/admin/tenant-types	Create a new tenant type
PUT	/api/v1/admin/tenant-types/{id}	Update a tenant type
DELETE	/api/v1/admin/tenant-types/{id}	Delete a tenant type
PATCH	/api/v1/admin/tenant-types/{id}/toggle	Toggle tenant type status

```
Create Tenant Type Request:
{
  "data": {
    "code": "LAW_FIRM",
    "name": "Law Firm",
    "description": "Full-service law firm with multiple lawyers",
    "isActive": true
  }
}

Response: {
  "data": {
    "id": "uuid",
    "code": "LAW_FIRM",
    "name": "Law Firm",
    "description": "Full-service law firm with multiple lawyers",
    "isActive": true,
    "createdAt": "2026-07-24T..."
  }
}
```
